

REMARKS/ARGUMENTS

In response to the Examiner's final Office Action of April 8, 2008 issued with respect to the present RCE application, the Applicant respectfully submits the accompanying Amendment of the claims and the below Remarks.

Regarding Amendment

In the Amendment:

independent claim 1 is amended to specify that the casing has a channel formed by a top wall and sidewalls of the casing, that the support member of the printhead module is received in the channel, and the print media guide is mounted to a slanted portion of one of the sidewalls of the casing immediately adjacent the channel. Support for these amendments can be found at page 12, lines 6-27 and in Fig. 3 of the present application; and dependent claims 2-4 are unchanged.

It is respectfully submitted that the above amendments do not add new matter to the present application, nor any new issues to the prosecution of the present application.

Regarding 35 USC 103(a) Rejections and Response to Arguments

It is respectfully submitted that the subject matter of amended independent claim 1, and claims 2-4 dependent therefrom, is not taught or suggested by Silverbrook '908 in view of Silverbrook '834, because neither of Silverbrook '908 and '834 teach or suggest disposing a print media guide on a channel sidewall of a casing which receives a printhead module, as is required by the claimed invention.

It is respectfully submitted that all of the Examiner's rejections have been traversed. Accordingly, it is submitted that the present application is in condition for allowance and reconsideration of the present application is respectfully requested.

Very respectfully,

Applicant/s:

Kia Silverbrook

Norman Micheal Berry

Garry Raymond Jackson

Akira Nakazawa
